OF THE

Government of His Highness the Maharaja of Mysore

DECEMBER 1913.

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS.
1913

Geological, dated 2nd December 1913.

The 2nd mestri and the two men at the plat did not seem to notice two reports. So it is likely that the two air-blasts heard on surface were not at the same place.

The hanging wall of the 34th level between Oakley's and Bullen's shafts, where stoping is going on, was rather badly shaken and a considerable amount of rock either fell or had to be taken down. This is 500′ or 600′ away from the stopes where the men were killed and between these points where there is no stoping there was no damage.

No damage appears to have been done in the levels above the two stopes where the accident occurred.

These two stopes will be abandoned and no more work done except repairing the stull above and filling in.

The accident was entirely unavoidable, since the timbering of the stope was evidently all that could possibly have been considered necessary and indeed no timber would probably have been of any use. Nor could such an occurrence have been expected in two small stopes with solid ground beneath and to each side."

Chief Inspector of Mines remarks.—"I agree with the decision arrived at above and note that further work is to be suspended. I shall be glad to have a note from the Superintendent as to whether he is prepared to have the stope cleared out to enable us to see more clearly the nature and extent of the damage to the footwall and so that it can be kept under observation to see whether any further movement or displacement occurs."

No. 1190-1, dated Bangalore, 2nd December 1913.

Order thereon.—The report of the Officiating Inspector of Mines shows that a severe air-blast took place about 2-30 P. M. on 30th October 1913 in a small stope below the 34th level of the Ooregum Mine. A large quantity of rock was displaced which partially filled the stope and buried four men. Rescue operations were at once started and continued for four days and nights without intermission under very difficult and dangerous conditions before the bodies were recovered. From the position of the bodies, all must have been killed instantaneously.

2. The stope in which the air-blast occurred is from 50 to 60 feet deep, below the 34th level with a total length, north and south, of about 80 feet. It is the deepest working in this part of the Mine, the rock on either side of the stope and below it being solid. The stopes immediately above have been timbered and filled with waste rock.

3. At the top of the stope there was a row of heavy timbers forming the floor of the 34th level. Below this were rows of timbers at every 8 feet in depth, the timbers in the rows being 4 feet apart. Practically all of this timbering was knocked out by the violence of the shock and fell down the stope together with a large quantity of broken rock. The latter has nearly all come from the footwall which has been severely shattered. So far as can be seen the hanging wall remains firm and intact.

4. In the opinion of the Officiating Inspector of Mines the timbering and filling was all that could be desired and the accident must be classed as unavoidable.

5. The Chief Inspector of Mines agrees with the officiating Inspector of Mines and notes that the whole question of protection against these air-blasts is still under most careful consideration, and that in the meantime work in a large number of stopes has been suspended pending further developments. Orders have been given for the suspension of further work in the stope in which the accident occurred.

6 The report will be recorded.

SECTION 3—BANKING

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR DECEMBER 1913.

Serial No	Proceedings		To whom sent	Subject and Order
	Number	Date		
1	Fl 2292—B 14-13-2 ...	1	Registr. of Co-operative Societies	Records his report on the District Co-operative Conference held at Hassan on the 4th and 5th January 1913 in connection with a Cattle Show organised at that place on the 3rd and 4th of that month, with the observation that it has been received nearly nine months after the event and that such belated reports serve no useful purpose.
2	Fl 2293—B 30-13-2 ...	1	Do	Sanctions the grant of one month's privilege leave from the 24th November 1913 to Mr. R. Ranga Rao, B.A., B.L., Assistant to the Registrar of Co-operative Societies, with permission to avail himself of the Xmas holidays, with the observation that the acting arrangement suggested by the Registrar does not seem to be necessary in view of the leave being of short duration.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	Fl 2474-5—B 48-12-2 ...	11	Secy., Insurance Committee, and Comptr.	Sanctions the recommendation of the Insurance Committee for raising the rate of interest on the balance of the Insurance Fund from $3\frac{1}{8}$ to $3\frac{1}{2}$ per cent per annum.
4	Fl 2550—B 29-13-2 ...	16	Regtr. of Co-operative Societies	Sanctions for reasons explained the proposal of the Registrar to postpone the date of the submission of the annual Report on the Working of Co-operative Societies from the 1st to the 15th October in future.
5	Fl 2551-2—B 29-13-2 ...	16	Comptr. and Secy., Insurance Committee	Sanctions the proposal of the Insurance Committee for raising the fee of the auditors who annually examine the books of the Insurance office from Rs. 100 to 200 in view of increase of work.
6	Fl 2553—B 6-13-14 ...	16	Regtr. of Co-operative Societies	With reference to his enquiry as to whether Mr. R. Ranga Rao, B.A., B.L., his Assistant, can claim charge allowance for the period he was in charge of his office during his visit to Simla, states that his visit to this place cannot be considered as a deputation as he was on duty and that Mr. Ranga Rao's being in charge is just like what it would be, if the Registrar were absent on a tour and he looked after the work at headquarters.

Serial No.	Proceedings			Subject and Order
